Chairman's Message

“
Company plans to handover
1,000 apartments across all the projects
in Mumbai Metropolitan Region which
includes Metropolis, Galaxy, Residency
Park and Premier Exotica.
”

Dear Shareholders,

Heartiest welcome to all my shareholders and Board of Directors to this 19th Annual General Meeting of your Company for the financial year 2014-15.

To me three words which differentiated India from rest of world are democracy, demographics and demand. Last year India has seen power of democracy by providing a strong political and stable regime which I feel will lead India to global power in next one decade. Our diverse demographics and strong internally led demand economy have made global powers to recognize India's might and presence. I also feel above 3Ds will immensely benefit the real estate sector which is the 2nd largest sector after agriculture and largest provider of organized and unorganized employment in India.

Apart from various initiatives by Central and State Government on development work, lots of socio-economic changes have also occurred. Our GDP growth has overtaken China and macro data on lower Inflation, improvement in fiscal deficit and aggressive Government spending will spur the economy.

Real Estate Sector has seen Green shoots of revival. Central Government ambitious policy on "Housing for all" and make India slum free is huge catalyst for a Real Estate Sector and development of urban infrastructure. Development of 100 Smart city, clarity on REIT, relaxation of interest rate for affordable housing were key highlights of policy decision for real estate sector. Policy like Land Acquisition Bill, Real Estate Regulations will provide much needed transparency and growth environment for the Industry.

Your Company is one of the largest developer and land bank owner in Mumbai Metropolitan Region. Mumbai has witnessed many changes in urban infrastructure landscape. Presence of Mono Rail, Metro Rail connecting Western - Eastern corridor has improved commu-time and bought the suburbs closer.

Development like proposed Development Control Regulation 2033, Coastal Road Policy, elevated suburban rail corridor, commencement of Metro III rail project will help and develop the connectivity between business districts and suburbs of MMR.

Policy of Central and State Government towards ease of doing business has started to show in Real Estate Development. State Government's efforts to streamline construction approvals and institutionalize the concept of deemed approval will boost the ease of doing business in the Real Estate Sector.

INDUSTRY AND ECONOMIC SCENARIO

The GDP growth of the Indian economy has recovered from the decadal lows of 4.6% year-on-year in First Quarter of 2014 to 7.5% year-on-year First Quarter of 2015 putting it ahead of China as the world's fastest growing large economy.

With Government of India's focus on pro-business legislations, expeditious clearances to large scale infrastructure projects, lowering the fiscal and current account deficit, controlling inflation, there are expectations of a major economic revival and growth. Economists and governing authorities have projected India to remain as the fastest growing economy in the coming years.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Centre's recent announcement to build 2 crore houses by 2022, launch 100 smart cities and Atal Mission for Rejuvenation and Urban Transformation ("AMRUT") of 500 cities are the preeminent things to be welcomed in Real Estate Industry. These initiatives will throw a plethora of opportunities for the industry and will offer solutions to today's unplanned urbanization and prove instrumental in developing, planning and providing infrastructure solutions from a futuristic perspective. Slum rehabilitation will be an integrated part of urban re-development, which will be highly beneficial for the Company.

The road map is expected to entail fast track approvals for project clearances, ease land conversion rules, encourage affordable housing and to bring additional credit linked subsidies to weaker sections of the society and to encourage low cost housing.

The real estate market is projected to reach US\$ 180 billion by 2020. The expected growth rate of the industry is at a compound annual growth rate ("CAGR") of 19% for the period 2010-2015, with Tier I metropolitan cities contributing to almost 40% of this growth. Real estate in India is being recognized as urban infrastructure service that is driving the economic growth engine of the country. Housing contributes to 6% of the country's GDP today.

The falling interest rates, controlled inflation, positive policy initiatives such as a regulator for housing, setting up of Real Estate Investment Trust ("REIT"), easing of lending norms for affordable housing, infrastructure status for affordable housing, increasing exposure from the commercial banks towards the real estate sector, will encourage the sector to boom. However, factors such as red tapism, delay in project approvals, lack of tax benefits will prove to be detrimental to growth.

According to data released by Department of Industrial Policy and Promotion, the construction development sector in India has received Foreign Direct Investment ("FDI") equity inflows to the tune of US\$ 24,012.87 million in the period April 2000- December 2014. Sensing the investment opportunities, several large global investors, including a number of sovereign funds, have taken the first move by partnering with successful local investors and developers for investing in the Indian real estate market.

OPPORTUNITIES AND THREATS

• Opportunities:

The announcement by the Central Government on Housing for all by 2022, 100 Smart Cities and AMRUT are expected to tremendously benefit the players of the Real Estate Industry and the Company is eyeing to clutch the opportunities arising thereon.

The favourable Government policies on urban infrastructure and real estate development is expected to give boost to the sale of residential, retail, commercial and Floor Space Index ("FSI").

The Company has been in the real estate and infrastructure domain having developed over 100 million sq. ft. of commercial, residential and retail space. The Company is market leader in Residential,

Affordable housing and Slum Rehabilitation Area ("SRA") projects. New Government policies and reforms will boost the development of SRA. Also the rising demand in affordable housing and FSI which will boost the market for your Company.

During 2014, Institutional private equity capital contributed USD 4.3 billion in Indian real estate, which is highly significant for the industry and it shows that the Real Estate Industry is moving towards the trend of structured financing, which is eyed as a great opportunity.

• Threats and Risks Perception:

The fallout of the Greek crisis and the overall ailment of the Global economy may impact the domestic economic scenario, which might lead to a negative bearing on inflation or interest rates that, will largely impact the real estate sector. An escalation in the interest rates might hold back investors from investing in properties. Apart from that higher interest rates will increase the cost of borrowing that will impact the profitability and the tempo of funding. Delay due to policy amendments which can be detrimental for the image of the Company and can effect its relationship with the customers.

The Company has constituted a Risk Management Committee which monitors risk tolerance limits, reviews and analyzes risk exposure related to specific issues and provides oversight of risk across the organization. The Board of Directors of your Company has adopted a Risk Management Policy, which lays down guidelines in identifying, assessing and managing risks that the businesses are exposed to.

Presently, Real Estate Sector is supposedly highly regulated with various laws of Central, State and Local authorities. However, any person can become a developer without any past experience in the Sector. There are no timeframe for approvals and accountability on approving authorities.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

Your Company has performed well in the sluggish economy environment and the Management of your Company is satisfied with the performance during the current financial year. Your Company plans all its projects taking into the intricacies of designing, developing and construction of each Project to details. Your Company employs expert team of Engineers, Architects, Designers, Structural Consultants and Human Resource Personnel to execute all its projects.

As on March 31, 2015, the portfolio of your Company comprised of residential component of 74%, commercial and retail 11% and SRA 15%.

Company's Projects

Your Company has handed over 1,336 tenements which includes 1,244 residential, 50 commercial and 42 entities units to Municipal Corporation of Greater Mumbai ("MCGM") built for rehabilitation of slum dwellers under SRA scheme at Premier compound in Kurla (West). With the commencement of the hand over process, MCGM has now released outstanding Transferable Development Rights ("TDR") for the project. In the coming months, HDIL plans to deliver

the remaining units under the scheme to MCGM or any designated authority as per SRA directions.

Presently Company is executing projects at Nahur, Mulund, Kurla, Andheri, Bandra-Kurla Complex, Goregaon and Santacruz and are at various stages of construction.

OUTLOOK

Despite being cautious, we are hopeful that the global economic scenario will have negligible impact on India. We are seeing sure signs of revival in the industry, especially the residential sector. With inflation in control, interest rates lowering and anticipation of strong successive GDP growth, the real estate industry is positioned for a healthy growth period over the next 4-5 years.

With our swift project execution and debt reduction strategy, your company is poised to grow strongly over the next 3-4 years. We plan to reduce our debts by ₹ 750 Crores this year, remain cash positive throughout and expect to sell 2 million sq. ft. of TDR throughout financial year 2015-16.

RISKS AND CONCERNS

The sale of units in real estate projects are highly dependent on the economic scenario of the country. The sales are subject to factors such as inflation and interest rates. If the factors are conducive we can expect good sales.

Government has cleared the room regarding the appointment of a regulator at the Central and the State levels. The Government should also ensure that the approval process for real estate projects need to be speedy. Otherwise there is a possibility of the projects getting delayed in approval process.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for purpose of expressing an opinion on whether the Company has in place of adequate internal financial control system over financial reporting and operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

1. SIGNIFICANT ACCOUNTING POLICIES:

A. Basis of preparation

- a) These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to Section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014, till the Standards of Accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply all material aspects with the Accounting Standards notified under Section 211(3C) of Companies Act, 1956 (Companies (Accounting Standards) Rules, 2006, as amended) and other relevant provisions of the Companies Act, 2013.

All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Company has ascertained its operating cycle to be 5 years for the purpose of current- non-current classification of assets and liabilities.

b) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities as on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognised in accordance with the requirements of the respective accounting standard.

B. Fixed assets

a) Tangible assets

Fixed assets are stated at cost of acquisition or construction, net of recoverable taxes, trade discounts, rebates, depreciation accumulated and accumulated impairment losses. All costs relating to the acquisition and installation of fixed assets are capitalised and includes borrowing costs relating to borrowed funds attributable to construction or acquisition of fixed assets, up to the date the asset is put to use.

Items of fixed assets that have been retired from active use and are held for disposal are stated at the lower of their net book value and net realisable value and are shown separately in the financial statements. Any expected loss is recognised immediately in the Statement of Profit and Loss.

Losses arising from the retirement of and gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

Projects under which assets are not ready for their intended use are shown as Capital Work-in-Progress.

b) Intangible assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives.

Gains or losses arising from the retirement or disposal of the asset are recognised as income or expense in the Statement of Profit and Loss.

C. Method of Depreciation and amortisation

Effective 1st April, 2014, depreciation on tangible assets is provided on the straight-line method over the useful lives of assets as specified in Schedule II of the Companies Act, 2013, as against the earlier practice of depreciating at the rates prescribed in Schedule XIV of the Companies Act, 1956. Depreciation for assets purchased / sold during a year is proportionately charged. Intangible assets are amortised over their respective estimated useful lives on a straight-line basis, commencing from the date of asset is available to the Company for its use.

Based on an independent technical evaluation, the useful life of Mobile Phones has been estimated as 3 years, which is different from that prescribed in Schedule II of the Act.

D. Investments

Investments that are readily realisable and are intended to be held for not more than a year from the date, on which such investments are made, are classified as current investments and are carried at lower of cost and fair value determined on an individual investment basis whereas all other investments are classified as long-term investments and are carried at cost. Provision for diminution in value of long term investment is made to recognise a decline other than temporary as specified in Accounting Standard (AS 13) on "Accounting for Investments".

E. Inventories

Inventories are valued as follows:

Inventory comprises of completed property for sale, transferable development rights, F.S.I. and projects in progress.

- (i) Completed property for sale and transferable development rights are valued at lower of cost or net realisable value. Cost formulae used are 'First-in-First-out'. - (ii) Projects in progress are valued at lower of cost or net realisable value. Cost formulae used are 'First-in-First-out'. Cost includes cost of land, land development rights, materials, services, borrowing costs, acquisition of tenancy rights and other related overheads. Cost incurred / items purchased specifically for projects are taken as consumed as and when incurred / received.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

- (iii) In the case of acquisition of land for development and construction, the rights are acquired from the owners of the land and the conveyance and registration thereof will be executed between the original owners and the ultimate purchasers as per trade practice. As a result, in the intermediate period, generally, the land is not registered in the name of the Company.

F. Revenue recognition

However, for the ongoing projects as on the date of introduction of Guidance Note on Accounting for Real Estate Transaction (Revised 2012) and also where Company has already commenced the recognition of the revenue from the projects, the Company follows completed project method of accounting ("Project Completion Method of Accounting") where in allocable expenses incurred during the year are debited to work-in-progress account and the income is accounted for as and when the projects get completed or substantially completed and also the revenue is recognised to the extent it is probable and the economic benefits will flow to the Company and the revenue can be reliably measured.

In case of funded defined benefit plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis. The Company has an obligation to make good the shortfall, if any.
- c) Other Long term Employee Benefits are recognised in the same manner as Defined Benefit Plans.
- d) Termination benefits are recognised as and when incurred.

H. Borrowing cost

K. Impairment

- (i) The carrying amounts of assets are reviewed at each Balance Sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed this estimated recoverable amount, assets are written down to their recoverable amount.
- (ii) After impairment, depreciation is provided on the assets revised carrying amount over its remaining useful life.
- (iii) A previously recognised impairment loss is increased or decreased depending on change in circumstances. However, an impairment loss is not decreased to an amount higher than the carrying amount that would have been determined has no impairment loss been recognised.

L. Income taxes

- a) Tax expense comprises of current and deferred tax charge or credit. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. - c) Use of estimates :

The preparation of financial statements requires management of the Group to make estimates and assumptions that affect the reported balances of assets and liabilities, the disclosures relating to the contingent liabilities as on the date of the financial statements and the reported amounts of revenues and expenses during the year reported. Actual results could differ from those estimates.

B. Principles of consolidation

The consolidated financial statements relate to the Company and its subsidiaries and joint ventures. In the preparation of these consolidated financial statements, investments in Subsidiaries and Joint Ventures have been accounted for in accordance with Accounting Standard (AS) 21 (Consolidated Financial Statements) and Accounting Standard (AS) 27 (Financial Reporting of Interests in Joint Ventures) respectively. The accounting policies have been consistent by applied by the Group and are consistent with those used in previous year. The consolidated financial statements are prepared on the following basis:-

- (a) Parent and its subsidiary Companies are consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses after eliminating all Intra-Group balances and Intra-Group transactions and also unrealised profits or losses, except where cost cannot be recovered. The results of operations of a subsidiary are included in the consolidated financial statements from the date on which the parent subsidiary relationship came into existence.
- (b) Interest in the assets, liabilities, income and expenses of the joint ventures are consolidated using proportionate consolidation method. Intra group balances, transactions and unrealised profits/losses are eliminated to the extent of Company's proportionate share, except where cost cannot be recovered.
- (c) The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the financial statements as Goodwill or Capital Reserve as the case may be.
- (d) The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as of the date of disposal is recognised in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- (e) Minority interest's share of net profits of consolidated subsidiaries for the year is identified and adjusted against the income of the Group in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the holding Company.
- (f) The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's stand alone financial statements.
- (g) An interest in jointly controlled entities which is acquired and held exclusively with a view to its subsequent disposal in the near / foreseeable future is accounted for as an investment in accordance with Accounting Standard (AS) 13, Accounting for Investments.

C. Segment reporting policies

As the Group operates on a backward integration model and its business activity primarily falls within a single business segment which constitutes real estate development, there are no additional disclosures to be provided under Accounting Standard 17 'Segment Reporting'. The Group operates primarily in India and there is no other significant geographical segments.

D. Goodwill

Goodwill is tested for impairment on periodically basis. If on testing, any impairment exists, the carrying amount of goodwill is reduced to the extent of any impairment loss and such loss is recognised in the Statement of Profit and Loss.
